Q THE SERVICE

QuickAP is an outsourced AP service for the strata industry. We do everything needed to process an invoice – receive, scan, file, verify, code and send for approval. You just click Approve and Pay.

The service means faster processing of your invoices, more accuracy and real-time visibility.

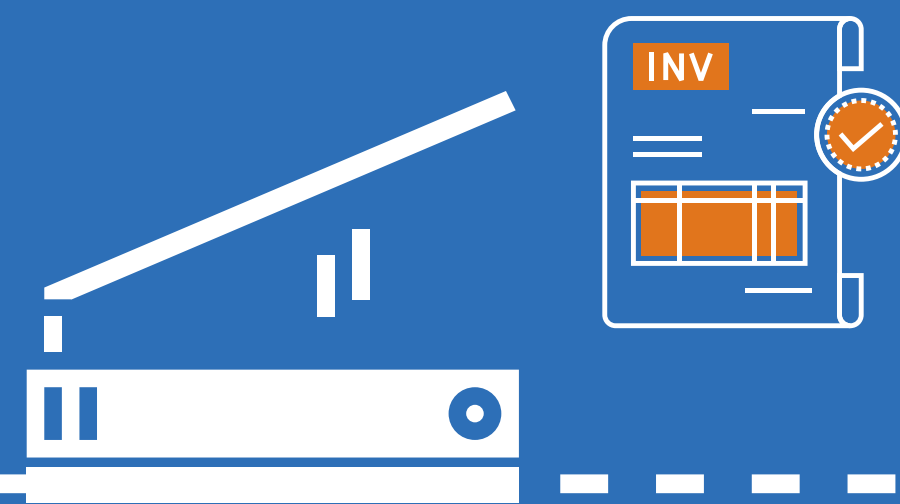

Q HOW DOES IT WORK?

Receive Direct

Suppliers send their invoices direct to us using a dedicated email address

1

Scan and Email

Suppliers post their invoices to you to be scanned and sent to us via email

2

For Approval

If approval of an invoice is required, either by the Committee or internally (or both), this is all automated

5

Code

Enter the invoice details in our Invoice Processing system.

We also file the invoice and attach it to the transaction

4

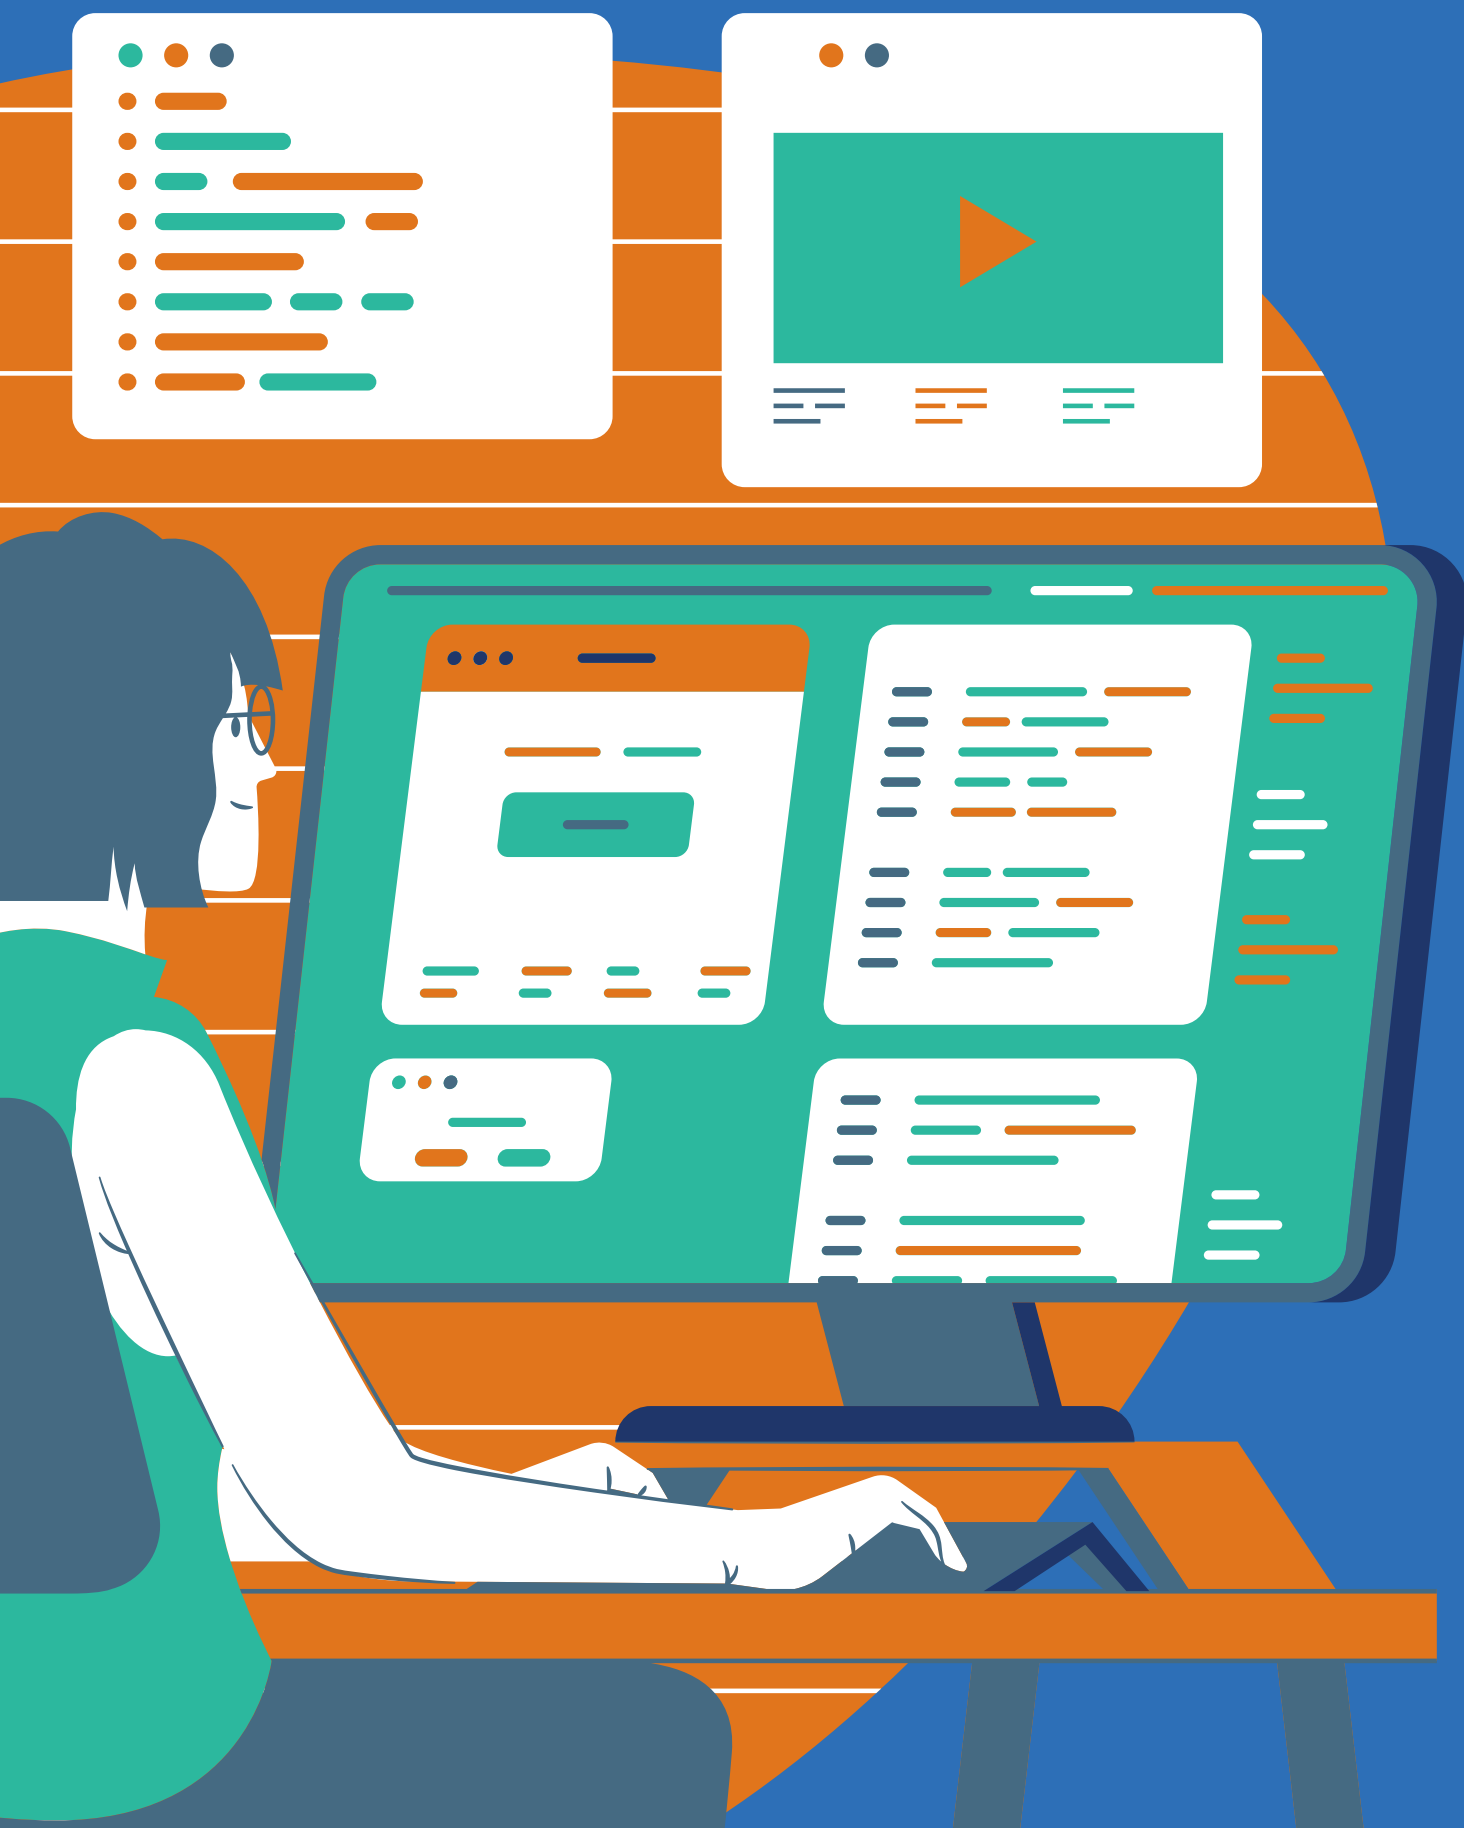

File and Verify

Check for duplicates

3

Q BENEFITS

- Invoices take hours to process, instead of days
- Quicker approval times
- Greater transparency and reporting tools
- Streamlined and efficient audits
- Less errors and duplications
- Free up time for staff to manage more business
- Less paper
- Faster retrieval of documents and related information
- Greater security and reduced risk of fraud

*Automation significantly boosts the number of invoices processed per month per staff member, from the average of 503 to 2492 - a **500 percent increase***

Q OUR PARTNER

The AP processing of this service is carried out by our exclusive partner for the strata industry, Acumen Data.

Acumen Data is a leader in automated accounts payable solutions. Informed by research, science and technology, Acumen Data was founded in 1998 and operates globally in Australia, New Zealand, Asia, India, Africa and Europe.

ACUMEN DATA™

Acumen Data has an extensive national and international client base which includes both public and private companies in industries spanning manufacturing, finance, health, mining, construction and defence, as well as numerous government departments and agencies.
